
RASIF MIRZAYEV

Baku, Azerbaijan | +994 70 808 96 36 | rsfmirzayev@gmail.com [LinkedIn: rasif-mirzayev](#) | [GitHub: Mirzayev42](#)

EDUCATION

Azerbaijan Technical University | *B.S. in Process Automation Engineering* | 2022 – 2026

WORK EXPERIENCE

Backend Developer Intern | DevJoint | July 2026 – Present

- Participated in an intensive backend development program, designing and implementing scalable enterprise REST APIs.
- Engineered the Library Management API utilizing Spring Boot, Spring Security (JWT), PostgreSQL, and Spring Data JPA Specifications for dynamic filtering.
- Configured complex relational mappings (**OneToMany**, **ManyToMany** with custom join tables) for books, authors, and categories.
- Implemented DTO mapping, strict request validation (`jakarta.validation`), and global exception handling for robust error management.
- Integrated pagination and sorting mechanisms to efficiently manage and retrieve large sets of book and author data.
- Integrated Swagger UI / OpenAPI (`springdoc-openapi`) for interactive API documentation and testing.
- Wrote unit tests with Mockito (`BookServiceTest`) and integration tests (`BookServiceIntegrationTest`) to ensure high code coverage and transactional integrity.

Java Developer Intern | Cybernetic | Jan 2026 – Jul 2026

- Developing backend services using **Java & Spring Boot**; designing **REST APIs** for system integration.
- Managing data persistence with **PostgreSQL** via **Spring Data JPA & Hibernate**.
- Utilizing **Git** for version control and collaborating on technical features in a professional environment.
- Participating in code reviews and technical discussions to ensure clean code architecture.

PROJECTS

SafeBox Cloud – Secure File Storage | *Spring Boot, MinIO, Docker, PostgreSQL, Spring MVC*

- Engineered a secure cloud storage solution with **MinIO** object storage; containerized via **Docker**.
- Managed environment configurations using **YAML** and handled multi-part uploads via **Spring MVC**.
- Integrated **Spring Initializr** for modular project setup and metadata synchronization.

Mini Banking System | *Java, Spring Boot, PostgreSQL, Thymeleaf, Spring Data JPA*

- Developed core banking features: account management, fund transfers, and transaction history tracking.
- Implemented secure data handling and server-side rendering for a seamless user experience.

Java Core Portfolio | *Basic Calculator, Grade Tracker, Contact Book*

- Developed desktop applications focusing on **OOP principles**, logic building, and data structures in **Java**.

TECHNICAL SKILLS

- **Frameworks:** Java (Core), Spring Boot, Spring Security (JWT), Spring Data JPA, Hibernate, Spring MVC.
- **Databases:** PostgreSQL, Redis, H2, Liquibase, JDBC, SQL.
- **Tools:** Docker, Git / GitHub / GitLab, Gradle, Swagger / OpenAPI, Postman, YAML, Spring Initializr, JUnit, Mockito.

CERTIFICATIONS & VOLUNTEERING

- **Java Backend Development** – Ingress Academy
- **Member** – Student Youth Organization (AzTU)
